Green Aliens of Plan-et and OFF MOONS

STARRY EXPLORERS

ON ABOUT THE MARTIANS

MOON ADVENTURES

OUT THERE

Green Aliens of Plan-et and Off Moons

From Up

A little alien

Green the Natives

From another world away

Earth spys the galaxy

Green Martian
There's a little alien
Green of the stars
Where from is a mystery
Way out there far

Green the Space Men

Little green men

From the stars

Fly the lights

To Earth they come

Green Alien

A light in the stars

Planets of Martians

From way afar out there

Maybe like green like

Like Where

Here I am

Where is here

A plan-et somewhere

Stars planets

Stars Where

In of our starry

A green its Martian

To the stars upon out there

Of moons there r on

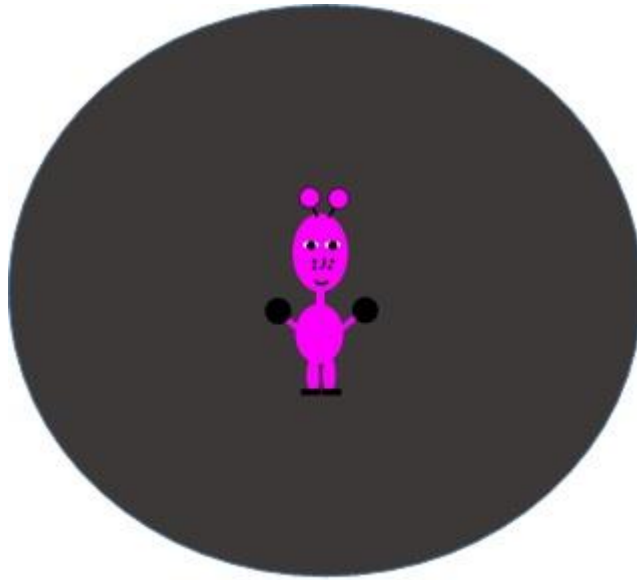

From HOME

Planets I am

On Earth the star

I look up

Nights on Earth

Moon of Light

To be in a world

Earth and plan-ets

In the sky stars

Where out there of moon worlds

Moon Stares

Once upon moon of days
Out about in outer space
It looks up the galaxy
A little green the aliens

Moon Looks

A galaxy to see
Starry searching
Only if to be
Planets starry

Earth Sky

A galaxy of like
Stars in the sky
Moons to see
Plan-ets plenty

Green and Starry

Stars to far

Moons like ours

Out there

Where from a Martians

Earth Travels
a world of
To find
What of it Plan-ets

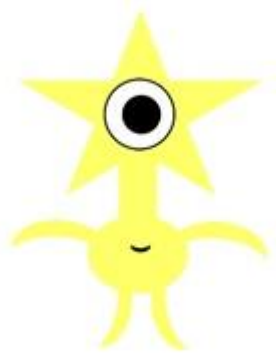

Moonly Dance

A galaxy to be
God makes us see
Lights of night
Stars we look at like

There What
A Star like man
Space Alien

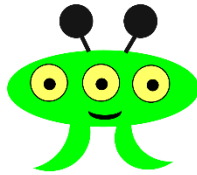

Little Green Men

To the stars

Moons like ours

Amongst the galaxy

Little green a Martian

There Green

Far moons

Like the stars

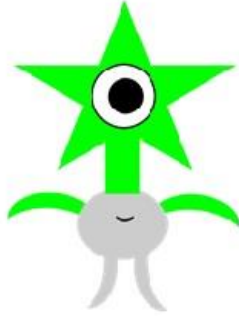

A galaxy-like

Green Martians

Star Men

Martian Men some green
Of our stars
Way far out there
There like r

Earth Up

Little green men

Of the stars

Fly the lights to the stars

STARs and MORE

Starry men

Spacecraft Alien

Star Dots

A plan-et we're at

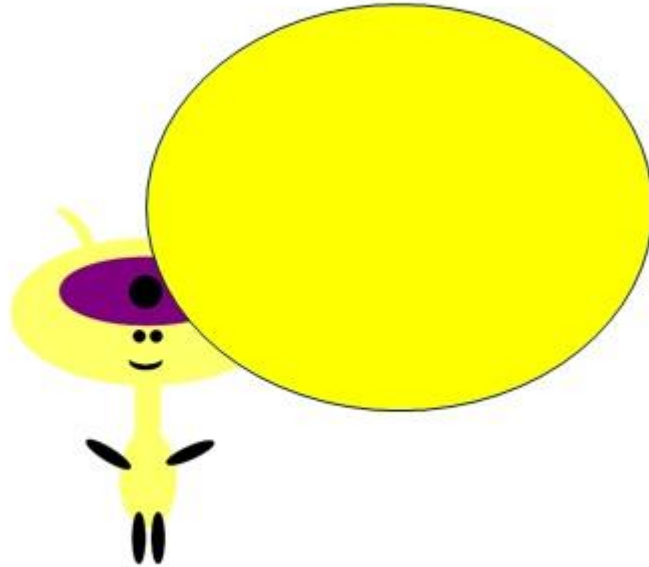

Looking just only

From the sky

Moons of under days of light

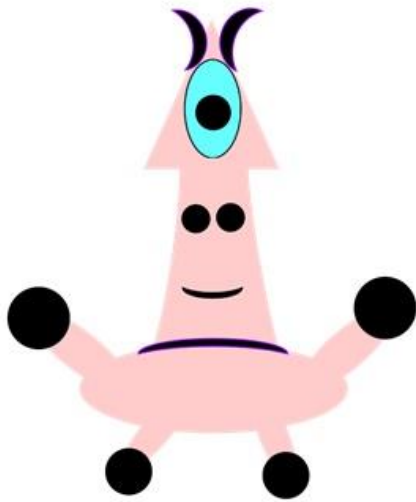

We're in Space
Here we r
Amongst stars planets

STARRY EXPLORERS

Space Earthlings

Here under stars the Earthlings r
To the planets the future
Martians maybe of moons???
Whatever to all the cosmos

Stuck on 3rd Rock Maybe Like Martians

Earthlings just so very far away

Someplace afar in the Milky Way from everything

None to the stars like Martians extra-terrestrials

To starlight the stars, universe somewhere from an alien?

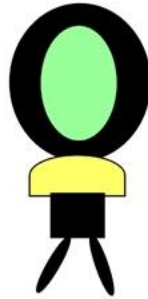

Starry Picture

Here under stars Earth ours

Martians what worlds extra-terrestrials

All only but sees the galaxy, moons the starry

Earthlings maybe to by of worlds the stars cosmos

Moons Meeting

Here the stars there the moon

What's out there the universe

Other stars planets

Earthlings to greet maybe like Martians???

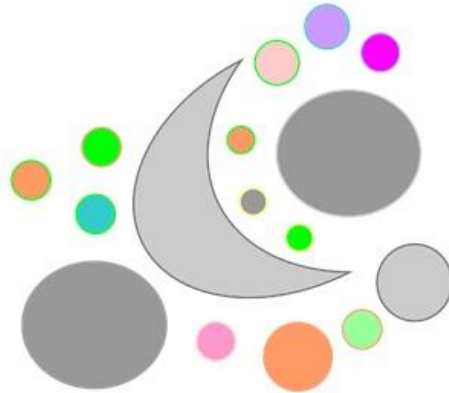

UFO Ride

Where the stars, moons and Martians

We see stars the night sky

Stuck until we're the planets

Earthlings maybe soon space moons soon

Space Men

What's there out there only Martians
The Earthlings glance up above just like looking
To the stars about all the planets
As extra-terrestrials coming the earthling

Explorer Earthlings

To the stars meet a Martian

Everywhere far from Earthlings

Our planet star to venture space stars

That aliens we seek other worlds planets

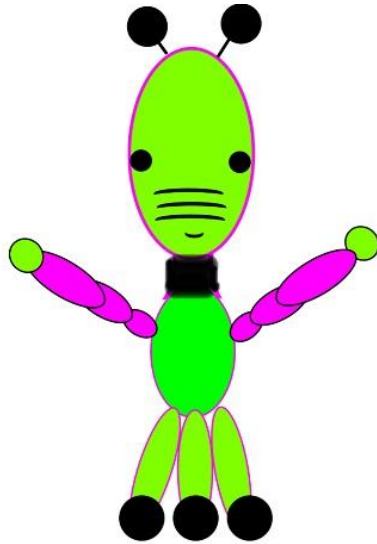

Of Like the Stars

Where to go the stars

Visit aliens their planet

A star from home of us Earthlings

Outer space finally here the futures

Stars Be

Space of the stars

Planets and all

Galaxies to meet

The starry Earthling

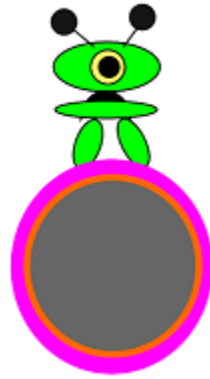

Moons Light the Stars

Starry-like into starlight

The earth world to other earth-like

The stars ours the universe aliens

Then a new world different and unusual starlike

Someday Someway

Until the moon shines aligns the planets

The galaxy life no contact

Aliens to greet and meet eventually

Earthlings to discover the stars r not alone our galaxy

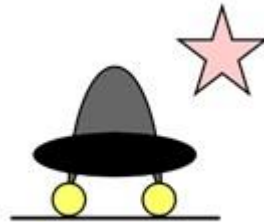

To Where the Martian

The moon & stars space bound humans

To explore the Milky Way the galaxy

Stargazing worlds with other extra-terrestrials

Our place in the stars Earth aliens

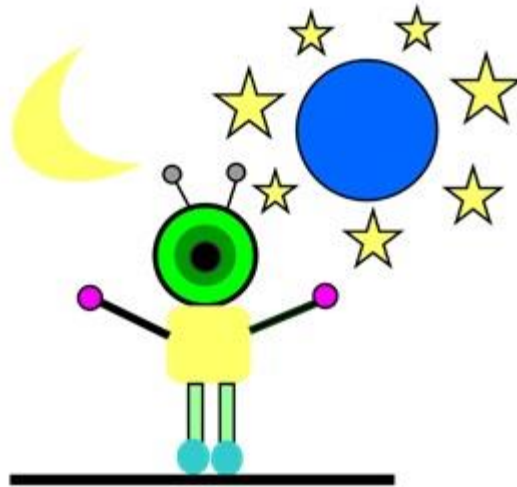

Martian Stars

Here we r space-like on a planet

Far-like in the galaxy

The stars we travel 3rd rock from the Sun

One day to fly around like a Martians!!!

ON ABOUT THE MARTIANS

Martian Worlds

Under moons somewhere

A Martian just stares

The Earthlings on there planet

Out there the galaxy near

Martian to Moons

Once upon a moon

Far-like starry

Worlds of Martians

The galaxy

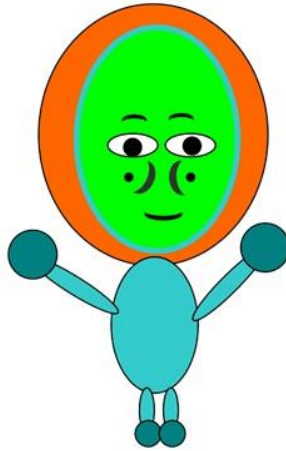

Space Worlds

The Milky Way of ours

Harbors the stars

Planets to Worlds

Moons to Martians

Martian-Trek

That which way of all moons
A Martian just looks
To the stars the starry
Spys Earth under the galaxy

Far Away

Once upon a Martian

In the Milky Way

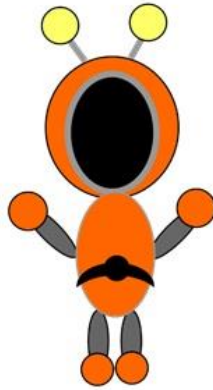

Planets the galaxy

There starry

Star Cloak

What is the Martian up there
On a planet starry
Looking up the galaxy
Earth sees only maybe

Martian of Lights

If I was a Martians
Looking to the stars
Where I be the galaxy
A world but so far

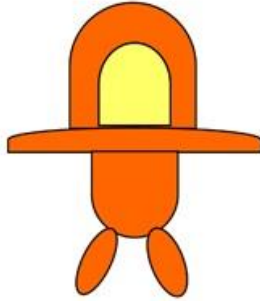

Martian Moon

Once upon a moon

Far-like starry

Worlds of Martians

The Galaxy

Martian Soup

Out there somewhere
A Martian stares there
What's out there
Way over there

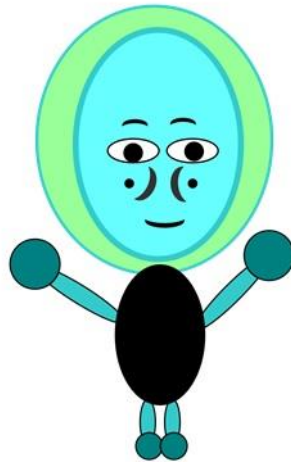

Martian Mirror

Martians to moons

Planets of the stars

Out there what

Little green the Martian

Martian There

A little day
The Milky Way
It looks up
To our planet

Martian Upon

Once upon a little day
In the Martian Milky Way
Stars just to look up
There on there planet

Martian People
Little green men

Martian Twinkles

Space Martians

Look up at Earth

Earthlings Planet

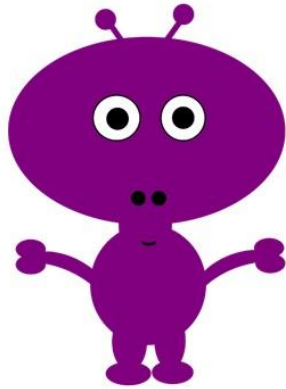

Moon Martians

Starry Worlds

Planets to stars

From the moon

There-like

Martian Lights

A world like by
Planet Earth spys
Where in the galaxy
Moons of Martians sky

MOON ADVENTURES

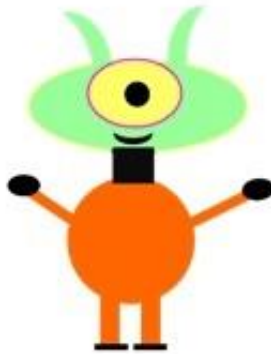

Star Address

A little Martian that

What's his address the planet

It is of the stars of

Happens only the galaxy where of out there

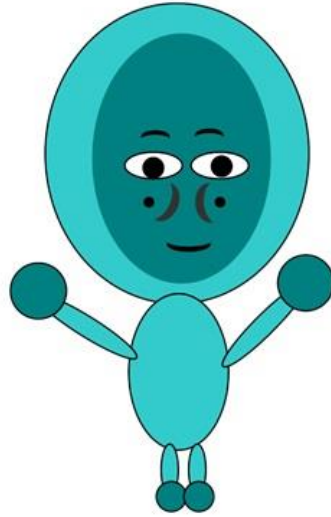

Far Tale

Those aliens stole my ship
They left me on this planet
I'm not sure the places be I am
The locals r light years different

Martian Skys

Once upon a Martian of days
It looks to the sky galaxy
See stars like ours
That in it is the universe

Flying By

Dreaming stars where like aliens
Earthlings dance yet of stars the future
The Martians and the universe
Moons to go be on far

Along a UFO

Chance happens along a UFO

Will they greet or ignore the earthlings

The stars they fly every which way the galaxy

Maybe one day we will fly up be Martian!!!

Far

An alien star a world far

Earthlings home no aliens near ours

Many planets close to reach the galaxy

A ufo a journey

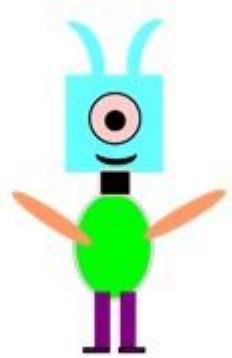

a UFO Space Spectacular

Once the moon ours stars the aliens

Planets along the way that galaxy

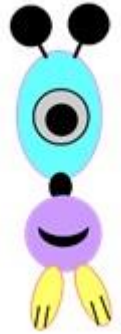

A UFO space travelling for Earthlings

Martian like style adventurings and the

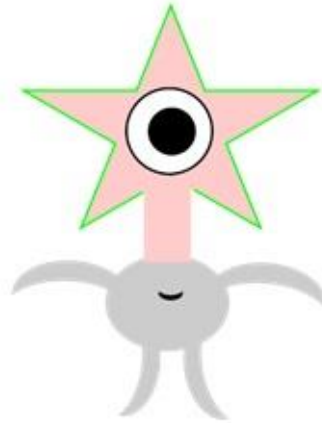

Starry Looking

The star-studded dots worlds of planets
Twinkle from Earth night-time sky horizon
Way under moonlights door
Aliens of the stars –Martian-

Future Galaxy

Dreams to go in ufos
To visit the stars up above
Then to find another world
Aliens in tow the galaxy ours of

OUT THERE

Moongaze

The Martians of planets

Fly of the stars

There in the lights

Under moon starry nights

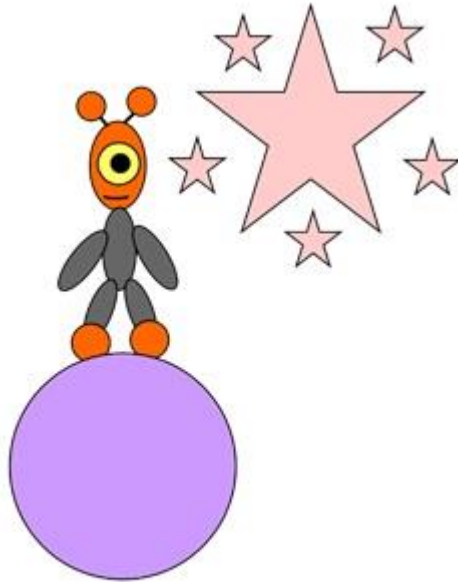

Starry Up

A world like far
Space Martians
Looks up like
To stars and planets

Looking UP

Once upon a day in the Milky Way
Something another planet alien
Where home it is unknown
The Earthlings spy the night sky like Martian

Moon Guess

Out there dots

Stars planets

What maybe

The starry

Moon-Lite Doors

A planet-like
Of in the starlight
Looks so far
Moons like ours

Earthlings Moon

There you say where your from

A alien like you the future earth moon unusual

In ufos time to come other there exploring some

Earthlings shoes on Martian stars what adventurers we become

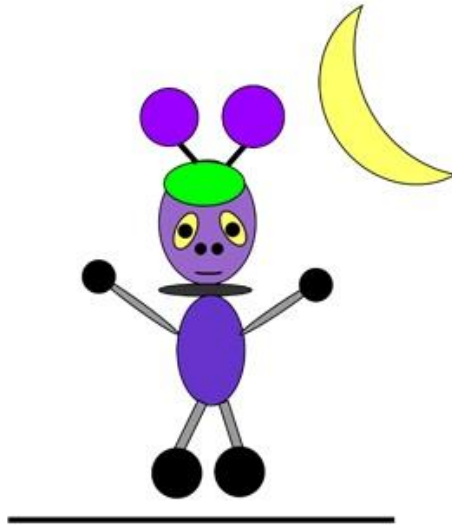

Star There of R

The stars of the Milky Way

Sparkle home for earthlings

Where to be the aliens

Another world way out there something there

What's There

In the galaxy of starry
Martians and the Earthling
Space-like of in the stars
Looking up way far

Moons Above

Here we r where from

On a planet the universe

Up above shining bright a world star earth-like

Moons light the stars our galaxy just starlights

Star-Gaze

The moons they say

There r aliens

The planets the galaxy

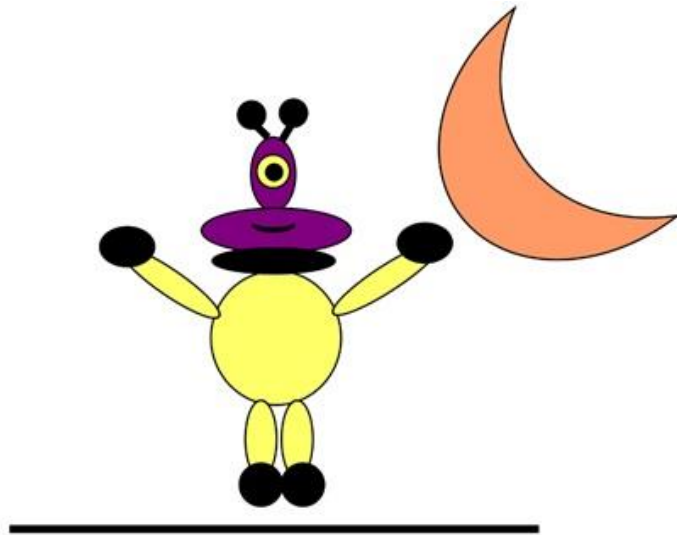

What Where

A moon by another star

What alien under they r

So many galaxies of ours the universe

The Earthlings wonder r we all alone only planets

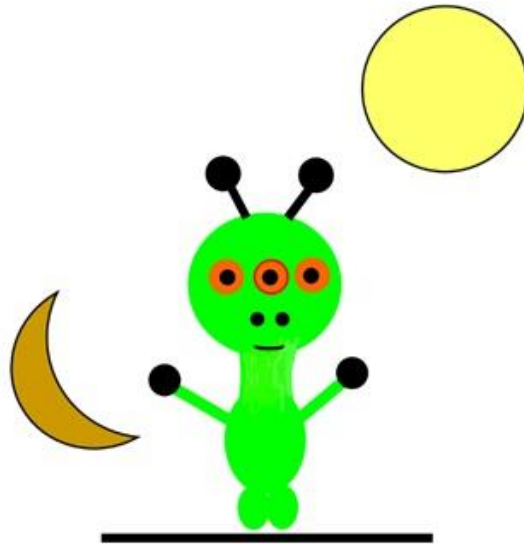

Starry Upon

Once upon the Martians

Looking up moon nights the starry-like

Pondering many a star

What's maybe of out there

Starry-Up

Once upon a Martian
In the Milky Way
Way far in the stars there

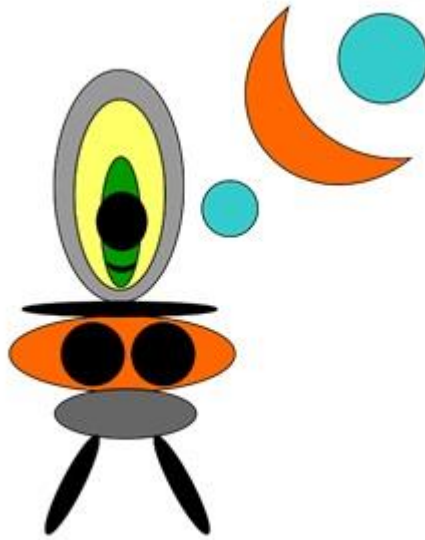

Star-Dance

Whatever maybe

The starry

Planets of Moons

The galaxy

Starry There

Stars to planets

Planets to moons

Outer space starry

There out there

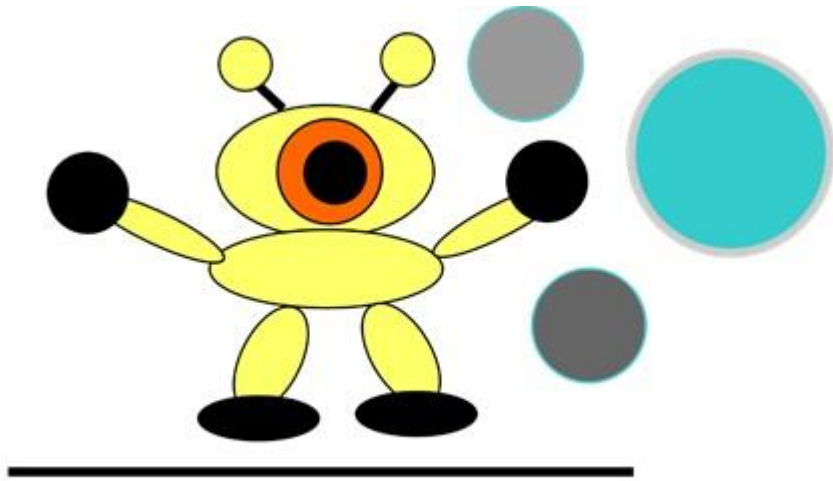

Up Where

Once upon a day

In the Martian Milky Way

Earthlings look to outer space

Lights up to our starry galaxy

Space Where

Moons to find

The planets that hide

Way afar in the stars

A Martian looks like

Far in the Stars

Outer-space stars of Martians

Somewhere where the aliens

Planets, galaxies out there the stars

Moons light where they r the galaxy

Martian Moonlight

Star-light

The Planets

A Galaxy away

In the Milky Way

Space-like

Starry There

Beyond our moon

Stars and Planets

A Martians

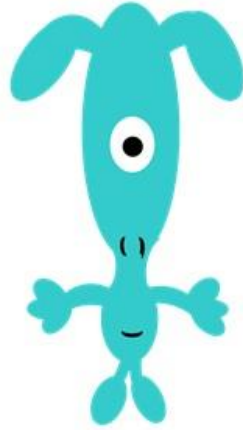

Planet Worlds

Moons to stars

Planets-like ours

A galaxy far

Out there

Up Above

Once upon a moon
Starry of in the stars
A galaxy like Martian
Earthlings look just out there

Stars Night

A galaxy night
The stars light
Whatever out there
The Martians stare

Starry Stars

Like a star

Where like

There the sky there

Martians-like

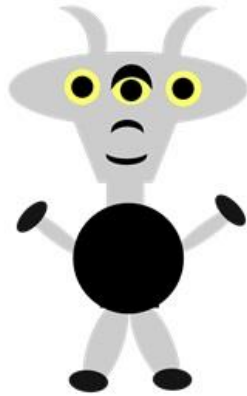

Somewhere Out There

Everywhere stars

Planets like ours

R a Martians

The starry like far

Star Stares

A Martian star

Worlds far

Looking up to like

The moon our sky
